Hernon[®] Receives Mexico Technology Award for Breakthrough UV Curable Adhesive for Versatile Plastic Sealing

SANFORD, FL - October 2023 - Hernon Manufacturing, Inc.[®] is pleased to announce that its new Hernon Ultrabond Sealant 721 has been honored with a prestigious Mexico Technology Award. The award was announced during a special ceremony on Wednesday, Oct. 25, 2023 held at during the SMTA Guadalajara Expo in Mexico.

Hernon Ultrabond Sealant 721 is a revolutionary UV curable adhesive meticulously designed to provide exceptional sealing capabilities for a wide range of plastics. This advanced sealant forms a robust, water-tight bond with outstanding environmental resistance, ensuring optimal performance and reliability in various applications.

One of the standout features of Ultrabond Sealant 721 is its ability to prevent material from escaping through a crimped seal. This not only guarantees a secure and leak-proof seal but also enhances the overall integrity of the assembly, making it a go-to choice for critical applications where precision and quality are paramount.

The Ultrabond Sealant 721's low powered UV lamp (Blacklight) utilization brings additional advantages. By employing a low powered UV lamp, users can efficiently inspect the presence of adhesive on the substrates, facilitating precise and efficient quality control during the manufacturing process. This innovative inspection capability ensures that the adhesive is applied correctly, further contributing to the product's exceptional performance.

The Mexico Technology Awards celebrate the latest innovations introduced in Mexico by OEM manufacturing equipment and materials suppliers over the last 12 months. The awards are a recognition of the exceptional contributions made by companies that are driving technological advancements in the region.

"We are incredibly honored to receive the Mexico Technology Award for Hernon Ultrabond Sealant 721," said [Spokesperson Name], [Title] at Hernon. "This accolade is a testament to the tireless efforts of our team and our commitment to delivering high-quality, innovative solutions to our customers."

Hernon Ultrabond Sealant 721 is now available for purchase, enabling manufacturers to optimize their sealing processes with confidence. For more information, please visit www.hernon.com.

About Hernon[®]

Hernon Manufacturing, Inc.[®] produces high-performance adhesives, sealants, UV LED curing lights and precision dispensing systems. Hernon[®] maintains a library unique adhesive and sealant formulas in addition to creating customized formulas to address specific manufacturing challenges. A full in-house chemical laboratory ensures quick turn around on testing and development projects and an on-site equipment division allows Hernon[®] to build, service and integrate unique dispensing systems to even the most exacting specifications. This integration helps Hernon[®] to provide customers with a Total Solution for any unique application.
